

# ELECTRONIC LATCHES

Sierra Pacific Engineering and Products now offers electronic rotary latches and actuators in a wide variety of sizes and stylings, ideal for many innovative applications.

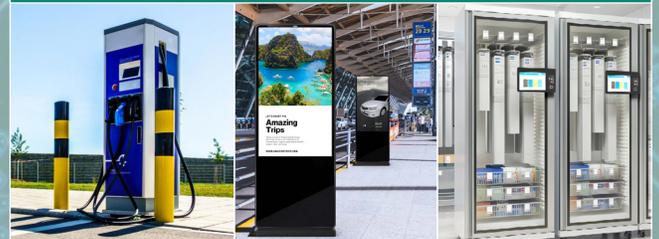

## FEATURES

- Simple push-to-close operation with secured electronic access control.
- Compact latch body, suitable for concealed and tight space compartments.
- Spring-loaded ejector available on most models to assist automatic door opening.
- Latch status signal for remote monitoring of enclosure open and closed state.
- Convenient mechanical override.
- Low 12V DC power consumption with various connector options (2-4 pins, automotive bullet connectors, plain wires...) - for versatile integration with new or existing smart access systems.

## APPLICATIONS

Smart Parcel Lockers

EV Charging Stations

Digital Kiosks

Medical Supply Cabinets

Slots/Arcade Machines

Automotive/Vehicular
